

The map displays the groundwater measurement network in Saarland. The state's boundary is marked by a thick yellow line. Major rivers are shown in blue, including the Saar, Moselle, and Rhine. Numerous smaller watercourses are also depicted. Green dots represent the locations of 50 groundwater measurement points, each labeled with a name and a number. A north arrow is positioned in the bottom left corner. The title 'Grundwassermessnetz Saarland' is located in the top left corner.
